

## **Iowa Communities that Operate their Own Natural Gas Distribution Systems**

-As you contemplate on whether or not the community should operate its own natural gas distribution system, take into consideration that there are already many communities in the state that operate and enjoy the benefits of having their own natural gas distribution system. These communities include:

Titonka 584	Whittemore 530	Emmetsburg 3958
Rolfe 675	West Bend 834	Gilmore City 556
Sac City 2368	Graettinger 900	Everly 810
Lake Park 1023	Hartley 1722	Wall Lake 841
Mapleton 1322	Woodbine 1564	Harlan 5282
Manilla 839	Manning 1490	Coon Rapids 1305
Guthrie Center 1668	Waukee 8132	Montezuma 1457
Brooklyn 1367	Sabula 670	Preston 949
Tipton 3155	Sanborn 1353	Rock Rapids 2573
Sioux Center 6327	Alton 1095	Orange City 5589
Remsen 1762	Hawarden 2478	Bedford 1620
Corning 1783	Prescott 266	Lenox 1401
Clearfield 371	Lorimor 427	Lamoni 2444
Moulton 658	Bloomfield 2601	Wellman 1393
Brighton 687	Wayland 945	Winfield 1131
Morning Sun 872	Osage 3451	Cedar Falls 36,145
Fairbank 1041	Cascade 1958	Lineville 225

- Many of these communities are much smaller than Pocahontas, yet they are effectively operating their own systems. You will notice that many of the communities are located right in our area. If you know anyone in the above mentioned communities, ask them what their feelings and experiences are on owning their own distribution system.
