

Pocahontas Area Children: Below Average?

Iowa schools rank below the national average in spending per student

These are the children your kids will compete against for limited college placements and throughout their life in business

According to the U.S. Census Bureau, Iowa's spending per child ranks 30th nationally. 60% of all states spend more per child than we do.

Is below average good enough for our PAC children?

- #1  Washington DC
\$ 18332. per child annually
- #2  New York
\$ 16800. per child annually
- #19  Minnesota
\$ 11010. per child annually
- #22  Nebraska
\$ 10543. per child annually
- #30  Iowa \$ 9771.00 per child annually

PAC Foundation

Serving the

Pocahontas Area Community Schools

Pocahontas • Rolfe • Havelock • Plover

As our rural communities work to find ways to support our children's educational needs in an environment of decreasing enrollment, the *PAC Foundation* is there to assist in those efforts.

The foundation works together with School administrators, students, parents, and local businesses to raise funds to purchase services and equipment that general budgets can't provide.

In the true pioneer spirit that guided our ancestors, the *PAC Foundations* goals are simple...

Use the proud heritage of our past ... to make the successes of our present, a strong foundation for

Our children's future
